

Concierge Cold Wallet Service

Optional hardware-wallet setup for FYT Private Placement investors

UAB “Insela” offers FYT Private Placement subscribers an optional Concierge Cold Wallet Service for the preparation and secure handover of a dedicated hardware wallet. The service provides a structured custody onboarding process for investors who prefer not to configure and manage a Web3 wallet independently.

How it works

If the Concierge Cold Wallet Service is selected in the FYT Private Placement Subscription Form, UAB “Insela” will arrange a dedicated, pre-configured hardware cold wallet, such as a Ledger device, for the Subscriber’s allocated FYT.

1**Dedicated hardware wallet**

A dedicated hardware cold wallet is prepared for the Subscriber.

2**FYT allocation**

The Subscriber’s allocated FYT is assigned to the wallet associated with the dedicated hardware device in accordance with the completed FYT Private Placement subscription.

3**Secure handover**

The physical hardware wallet and the relevant security credentials are provided to the Subscriber in a sealed package.

4**Subscriber custody**

Upon handover, the Subscriber assumes full physical custody and responsibility for the hardware wallet and the associated security credentials.

No Web3 experience required

The Concierge Cold Wallet Service is intended for investors who prefer not to create or configure their own Web3 wallet.

Instead of providing an existing wallet address, the Subscriber may select the Concierge Service directly in the FYT Private Placement Subscription Form.

Investors who already use their own Web3 wallet may alternatively select the Self-Custody option and provide their existing wallet address.

Important

- The Concierge Cold Wallet Service concerns the preparation and handover of the hardware wallet.
- Following handover, responsibility for the physical device and the relevant security credentials passes to the Subscriber.
- The terms of the FYT subscription, including the applicable six-month lock-up period, remain governed by the FYT Private Placement Subscription Form.

To use the Concierge Cold Wallet Service, select “Option A – Issuer-Provided Cold Storage” in the FYT Private Placement Subscription Form.
